

How to make ORIZURU

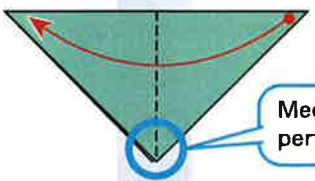

TIPS to make a paper crane

- ① Meet all the corners correctly and completely.
- ② Make all the creases hard and sharply.
- ③ Well-looking or not, your crane will encourage the people!

----- valley fold crease - - - - - mountain fold crease

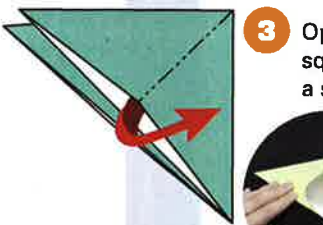

1 Prepare a square sheet of paper. Make a triangle folding the sheet diagonally.

2 Again fold it diagonally.

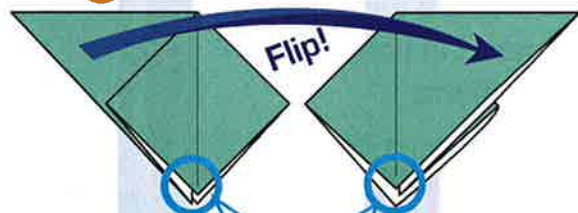

Meet the corners perfectly!

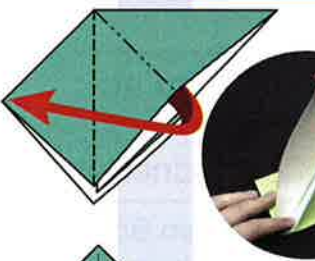

3 Open a triangle and squash it flatly to make a square.

Put your finger inside to squash easily.

4 Flip it over.

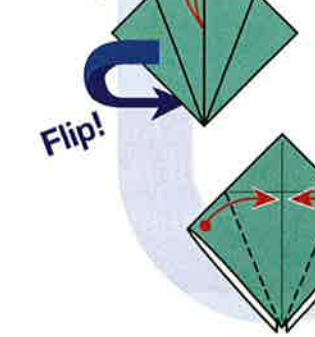

Meet the corners perfectly!

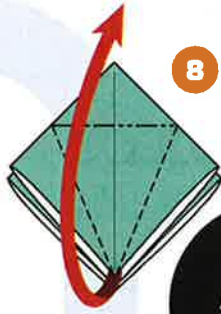

5 And make another square.

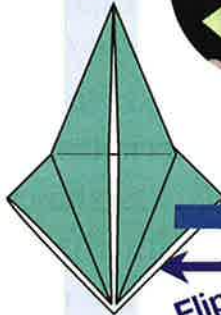

6 Fold the edges inwards to the centre, and the top corner down. After creasing the top corner hard, open it.

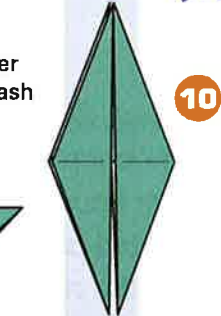

7 Flip it over and fold another side's edges to the centre. After creasing the both sides, open them.

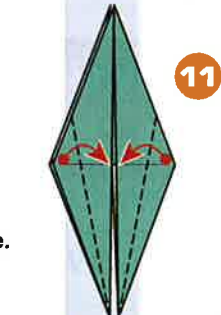

8 Open the top flap up and squash it flatly. You'll get a rhombus.

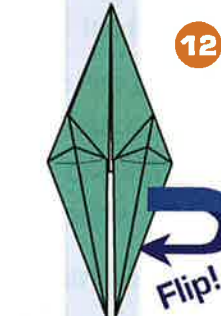

9 Flip over and make another rhombus.

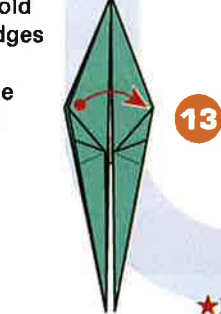

10 Then you'll get this.

11 Fold the long edges inwards to the centre.

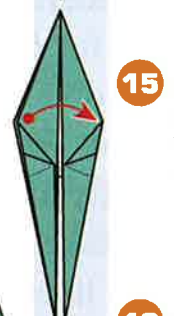

12 Flip it over and fold another side's edges inwards to the centre.

13 Open a flap on a side.

14 Then you'll see a shape like a fox's face!

15 Open a flap on another side, then you can see a fox on both sides.

16 Fold the long legs upward on both sides to meet the top tips.

Then open the flaps on the both side.

17 You'll get a piece like a bud.

18 Fold down the wings, and bent one thorn, making a beak.

19 Pull the wings a little, and shape it like a crane!

Write your message here.

★ Please close the wings when you post the orizuru into the box in the fair.
